Unit Outline
EDUC1000 Teaching and Learning in the Digital World
Semester 1, 2017

Unit study package code: EDUC1000
Mode of study: Fully Online
Tuition pattern summary: This unit does not have a fieldwork component.
Credit Value: 25.0
Pre-requisite units: Nil
Co-requisite units: Nil
Anti-requisite units: Nil
Result type: Grade/Mark
Approved incidental fees: Information about approved incidental fees can be obtained from our website. Visit fees.curtin.edu.au/incidental_fees.cfm for details.
Unit coordinator: Title: Mrs
Name: Sarai Mannolini-Winwood
Phone:
Email: sarai.mannolini-winwood@curtin.edu.au
Location: Building: 501 - Room: Level 3
Teaching Staff: Name: Martin Cooper
Phone:
Email: martin.cooper@curtin.edu.au
Location: Building: 501 - Room: Level 4
Administrative contact: Name: Kat Minutillo
Phone: +618 9266 2158
Email: Educationstudents@curtin.edu.au
Location: Building: 501 - Room: 304

Learning Management System: Blackboard (lms.curtin.edu.au)

Acknowledgement of Country
We respectfully acknowledge the Indigenous Elders, custodians, their descendants and kin of this land past and present. The Centre for Aboriginal Studies aspires to contribute to positive social change for Indigenous Australians through higher education and research.

Syllabus
This unit provides an overview of technology enhanced resources commonly used to support teaching and learning. Fundamental skills, attitudes, and approaches that educators require to make effective personal and professional use of such resources in varied educational contexts will be addressed. A key focus will be effective integration of technology to enhance learning, teaching and management processes. Approaches for working in technology-rich educational contexts by which possible harm to one’s self and to others may be minimised through systematic assessment of risk, adoption of safe practices, and ethical behaviour will be explored.
Introduction
Welcome to the unit. This unit focuses on how our lives are being reshaped by the permeating presence of digital technologies. The ‘digitalisation’ of our world and the evolving promise of ‘anything, any time and everywhere’, has implications for education also. This unit will provide students with the opportunity to explore how digital technologies are changing the way we live, relate to each other and how we learn. Students will be introduced to a broad range of topics and perspectives. The unit looks at the opportunities and consequences of teaching and learning in the digital world. It is designed to help students navigate through the ‘technological maze’ and how to harness their potential for learning and teaching in present and future real, virtual and augmented education spaces.

Please note - this unit changed its title in 2015. Previously it was called Living and Learning in the Digital World (LLiDW) so many of our resources and professionally created videos have this title on them. Please ignore this and don’t worry - apologies for any confusion

Unit Learning Outcomes
All graduates of Curtin University achieve a set of nine graduate attributes during their course of study. These tell an employer that, through your studies, you have acquired discipline knowledge and a range of other skills and attributes which employers say would be useful in a professional setting. Each unit in your course addresses the graduate attributes through a clearly identified set of learning outcomes. They form a vital part in the process referred to as assurance of learning. The learning outcomes tell you what you are expected to know, understand or be able to do in order to be successful in this unit. Each assessment for this unit is carefully designed to test your achievement of one or more of the unit learning outcomes. On successfully completing all of the assessments you will have achieved all of these learning outcomes.

Your course has been designed so that on graduating we can say you will have achieved all of Curtin’s Graduate Attributes through the assurance of learning process in each unit.

Curtin’s Graduate Attributes

| ![Mail] Apply discipline knowledge | ![Lightbulb] Thinking skills (use analytical skills to solve problems) | ![Lightbulb] Information skills (confidence to investigate new ideas) |
| ![Phone] Communication skills | ![Lightbulb] Technology skills | ![Lightbulb] Learning how to learn (apply principles learnt to new situations) |
| ![Globe] International perspective (value the perspectives of others) | ![Lightbulb] Cultural understanding (value the perspectives of others) | ![Lightbulb] Professional Skills (work independently and as a team) |

Find out more about Curtin’s Graduate attributes at the Office of Teaching & Learning website: [ctl.curtin.edu.au](http://ctl.curtin.edu.au)

Learning Activities
This unit provides a range of interactive learning activities to develop students’ skills and knowledge to facilitate effective use of current and emerging digital technologies for personal and professional communication, teaching and learning.

Learning Resources
Essential texts

The required textbook(s) for this unit are:

  (ISBN/ISSN: 9780195578430)

Other resources

Please see Blackboard and the Program Calendar for other resources. Many of these are online resources and you will see weblinks to these on Blackboard.

Assessment

Detailed information on assessment tasks

1. **Assessment Task 1: Piktochart (25%)**

   Explore the role a technology can play in education. Create an infographic using [Piktochart](http://piktochart.com) and then write a 250 word reflection.

   You have two tasks to complete for this assessment:
   1. Create an infographic using Piktochart (15 marks)

      The topic of your infographic is one website, web-based tool or technology device (note this is a digital device) that could be used in an educational setting. For example; blogging, twitter, kahoot, I.W.B, or Edmodo, or so much more. Try to select a topic that you are not overly familiar with, use this assessment task as an opportunity to learn something new.

      Your infographic should cover the following three aspects:
      1. What it is (define and describe it)
      2. How you use it (this might include describing the steps)
      3. The pros and cons of the tool or device

      Include in-text and end references for the information and images used in your Piktochart.
2. Reflection (10 marks)
Write a 250 word reflection on your learning experiences for this first assessment task. You may focus on the topic tool you selected and/or your experience using Piktochart. As you have been asked to create an infographic, use the following questions to help you plan what you will include in your reflection:

- What have you learnt? What specific (general and technological) skills did you use?
- What connections can you make between the assessment task and the weekly readings?

Include in-text and end references for your reflection (APA 6th Edition format)

2. Assessment 2: Blog (50%)
As part of your development in becoming digital educator you will create and develop a Blog (using www.Wordpress.com OR www.weebly.com) on the following overarching topic; teaching in a digital world. This will be developed and added to throughout the course of the unit and you should allocate time throughout the first 8 weeks to be working consistently on your Blog. This is a creative project and how you decide to design, structure and develop your project will be your choice.

Your Blog should include the following:

1. Three summations of topics selected from the list below (these are the weekly topics from the units) and should review the topic, while focusing on how these topics apply to teaching and learning:
   - What is a digital world?
   - Digital identities and digital security
   - Digital convergence
   - Transmedia
   - Participation and the digital divide
   - Being a digital curator
   - Digital Fluency

2. Your three summations are to be presented as: 1 written blog summary of 300 words; 1 auditory oral speech summary meeting a 300 word script, roughly 2-4 minutes; 1 engaging visual presentation summary of 2-4 minutes/300 words. Each summation must appear as a blog post on your Blog and include a list of references relevant to that post.

3. The three summations should each focus on one of the above topics and must use different tools – these can be taken from any of the digital activities that we explore during the unit. For example, you cannot use Piktochart as you did this in Assessment 1, also if you use Prezi for your auditory section you cannot use it for your visual section.

4. A final reflection that evaluates the complexities of the digital world and its impact on education and schooling (300 words). Discuss the different styles of technology you engaged with in creating your blog and explain how your use of these have impacted on your understanding of digital technologies in teaching.

Your blog will be marked on the following criteria (see the rubric for more detail):

- Creativity and design of your blog and summations.
- Comprehensive understanding of the three topics that includes engaging with the weekly readings and demonstrating your own wider reading.
- A final critical reflection.

3. Assessment Task 3: eTest (25%)
The eTest will be available on 08:00 (WST) Monday 29th May 2017 to 23:59 (WST) Friday 2nd June 2017.

This online test consists of 25 multiple choice items drawn randomly from a large pool of items based
on the unit content, learning activities and readings from Weeks 1 to 12 inclusive.

You will have 90 minutes in which to complete the test in one sitting. You can only attempt the test once.

The eTest is accessed through the link in the Assessment 3 folder.

The aim of this assessment task is for students to demonstrate their engagement with and understanding of the concepts and content of the unit.

The correct responses will not be made available to you because the test items will be reused and releasing the answers would jeopardise the validity of scores by other students.

The text (Howell, 2012) chapters relevant to the eTest are:

Chapters 1, 3, 4, 5, 6, 7, 8, 9, 10, 12

Pass requirements

In order to pass this unit, all assessment tasks must be submitted and an overall mark of 50% or more must be achieved. Assessments are not considered as submitted if any required sections are incomplete, or if the electronic file is unreadable. It is a student’s responsibility to ensure that assessments are complete and have been successfully uploaded in a readable format.

A student who has received a Fail Grade (less than 50%) for an assessment, but achieves at least 40% of the possible mark for an assessment that was handed in on time, will be offered the opportunity to resubmit. The maximum a resubmission can be awarded is 50% of the possible mark and only one assessment resubmission per unit is possible. The resubmitted work must be received by the due date.

Fair assessment through moderation

Moderation describes a quality assurance process to ensure that assessments are appropriate to the learning outcomes, and that student work is evaluated consistently by assessors. Minimum standards for the moderation of assessment are described in the Assessment and Student Progression Manual, available from policies.curtin.edu.au/policies/teachingandlearning.cfm

Late assessment policy

This ensures that the requirements for submission of assignments and other work to be assessed are fair, transparent, equitable, and that penalties are consistently applied.

1. All assessments students are required to submit will have a due date and time specified on this Unit Outline.
2. Students will be penalised by a deduction of ten percent per calendar day for a late assessment submission (e.g. a mark equivalent to 10% of the total allocated for the assessment will be deducted from the marked value for every day that the assessment is late). This means that an assessment worth 20 marks will have two marks deducted per calendar day late. Hence if it was handed in three calendar days late and given a mark of 16/20, the student would receive 10/20. An assessment more than seven calendar days overdue will not be marked and will receive a mark of 0.

Assessment extension

A student unable to complete an assessment task by/on the original published date/time (e.g. examinations, tests) or due date/time (e.g. assignments) must apply for an assessment extension using the Assessment Extension form (available from the Forms page at students.curtin.edu.au/administration/) as prescribed by the Academic Registrar. It is the responsibility of the student to demonstrate and provide evidence for exceptional circumstances beyond the student’s control that prevent them from completing/submitting the assessment task.

The student will be expected to lodge the form and supporting documentation with the unit coordinator before the assessment date/time or due date/time. An application may be accepted up to five working days after the date or due date of the assessment task where the student is able to provide an acceptable explanation as to why he or she was not able to submit the application prior to the assessment date. An application for an assessment extension will not be accepted after the date of the Board of Examiners’ meeting.
Deferred assessments
If your results show that you have been granted a deferred assessment you should immediately check OASIS for details.

Supplementary assessments
Supplementary assessments, if granted by the Board of Examiners, will have a due date or be held between 12/07/2017 and 25/07/2017. Notification to students will be made after the Board of Examiners’ meeting via the Official Communications Channel (OCC) in OASIS.

It is the responsibility of students to be available to complete the requirements of a supplementary assessment. If your results show that you have been granted a supplementary assessment you should immediately check OASIS for details.

Reasonable adjustments for students with disabilities/health circumstances likely to impact on studies
A Curtin Access Plan (CAP) is a document that outlines the type and level of support required by a student with a disability or health condition to have equitable access to their studies at Curtin. This support can include alternative exam or test arrangements, study materials in accessible formats, access to Curtin's facilities and services or other support as discussed with an advisor from Disability Services (disability.curtin.edu.au). Documentation is required from your treating Health Professional to confirm your health circumstances.

If you think you may be eligible for a CAP, please contact Disability Services. If you already have a CAP please provide it to the Unit Coordinator at the beginning of each study period.

Referencing style
The referencing style for this unit is APA 6th Ed.

More information can be found on this style from the Library web site: http://libguides.library.curtin.edu.au/referencing.

Copyright
© Curtin University. The course material for this unit is provided to you for your own research and study only. It is subject to copyright. It is a copyright infringement to make this material available on third party websites.
Academic Integrity (including plagiarism and cheating)

Any conduct by a student that is dishonest or unfair in connection with any academic work is considered to be academic misconduct. Plagiarism and cheating are serious offences that will be investigated and may result in penalties such as reduced or zero grades, annulled units or even termination from the course. Assessments under investigation will not be given a mark until the matter is concluded. This may result in the unit grade being withheld or a grade of Fail Incomplete (F-IN) until a decision has been made by the Student Disciplinary Panel. This may impact on enrolment in further units/study periods.

Plagiarism occurs when work or property of another person is presented as one’s own, without appropriate acknowledgement or referencing. Submitting work which has been produced by someone else (e.g. allowing or contracting another person to do the work for which you claim authorship) is also plagiarism. Submitted work is subjected to a plagiarism detection process, which may include the use of text matching systems or interviews with students to determine authorship.

Cheating includes (but is not limited to) asking or paying someone to complete an assessment task for you or any use of unauthorised materials or assistance during an examination or test.

From Semester 1, 2016, all incoming coursework students are required to complete Curtin’s Academic Integrity Program (AIP). If a student does not pass the program by the end of their first study period of enrolment at Curtin, their marks will be withheld until they pass. More information about the AIP can be found at: https://academicintegrity.curtin.edu.au/students/AIP.cfm

Refer to the Academic Integrity tab in Blackboard or academicintegrity.curtin.edu.au for more information, including student guidelines for avoiding plagiarism.

Information and Communications Technology (ICT) Expectations

Curtin students are expected to have reliable internet access in order to connect to OASIS email and learning systems such as Blackboard and Library Services.

You may also require a computer or mobile device for preparing and submitting your work.

For general ICT assistance, in the first instance please contact OASIS Student Support: oasisapps.curtin.edu.au/help/general/support.cfm

For specific assistance with any of the items listed below, please contact The Learning Centre: life.curtin.edu.au/learning-support/learning_centre.htm

- Using Blackboard, the I Drive and Back-Up files
- Introduction to PowerPoint, Word and Excel
Additional information

The Unit Coordinator is responsible for ensuring that the guidelines contained in the Curtin University Student Assessment and Progression policy are adhered to in their unit/s. The onus is on students to provide evidence that their inability to complete an assessment task by the due date can be accepted as being due to exceptional circumstances beyond the student’s control. Such exceptional circumstances that may warrant approval of an assessment extension include, but are not limited to:

- Student injury, illness or medical condition of such significance that completion of the assessment task was not possible;
- Family issues (eg family injury or illness, bereavement etc) of such significance that completion of the assessment task was not possible;
- Commitments to participate in elite sport or other activities that warrant favourable consideration;
- Commitments to assist with emergency service activities (eg bushfire protection);
- Unavoidable and unexpected work commitments (eg relocation, changes to fly-in/ fly-out schedules).

These guidelines can be found in Curtin University’s Assessment and Student Progression manual.

Students will be notified of the outcome of their application for Assessment Extension within five working days of the application.

For assignments or other submitted work, an extension will normally be granted up to seven days after the initial due date/time, unless the circumstances warrant a longer delay.

If an application for Assessment Extension is rejected, the Unit Coordinator must provide reasons for her/his decision. Students have the right of appeal (to the Head of School).

Corrupted or Unreadable Files

Assessments are not considered as submitted if the electronic file is not readable. It is a student’s responsibility to ensure that assessments have been successfully uploaded in a readable format.

It is strongly recommended that students check all uploaded assessments by re-accessing Blackboard and attempting to open and read the uploaded file.

If a lecturer encounters a problem with a submitted file the student will be notified and must provide a readable file within 48 hours of this notification, after which it is considered as a late submission.

Students should check their Curtin student email daily during the assessment marking period.

Assessment Appeals

Any student who genuinely believes that assessed work has been unfairly or inaccurately marked or that their final unit grade is inappropriate has the right to request a review of the mark or final result. If this review process is unable to resolve the issue, a formal assessment appeal may be lodged.

It is expected that most situations will be able to be resolved without the need for a formal appeal.

- Step 1 – Initial Request for Review by marker or unit co-ordinator. This informal review will be to check that marking was accurate and complete. The work is not completely re-assessed. Marks cannot be reviewed downwards as a result of this informal process.
- Step 2 – Formal Appeal. If the appeal is upheld and the work re-assessed, this can then result in a mark that is higher, lower or the same as the original assessment.

Student Support
Learning Centre

- Comprehensive support for many aspects of students' learning is offered through face to face and online resources via the Learning Centre

Uni English

- This website has been designed to support students whose first language is not English. The Curtin University UniEnglish website contains English language resources, activities, support information, and links to diagnostic assessment tests.

Counselling

- All Curtin students are entitled to access Curtin Counseling for free, confidential and professional services. This includes online students who may require individual counselling for personal, psychological, or study-related issues (although please note that the counselling service is not the appropriate avenue for pursuing assessment queries or debates).

Enrolment

It is your responsibility to ensure that your enrolment is correct - you can check your enrolment through the eStudent option on OASIS, where you can also print an Enrolment Advice.

Student Rights and Responsibilities

It is the responsibility of every student to be aware of all relevant legislation, policies and procedures relating to their rights and responsibilities as a student. These include:

- the Student Charter
- Values and Signature Behaviours
- the University’s policy and statements on plagiarism and academic integrity
- copyright principles and responsibilities
- the University’s policies on appropriate use of software and computer facilities

Information on all these things is available through the University’s "Student Rights and Responsibilities" website at:
students.curtin.edu.au/rights.
Student Equity

There are a number of factors that might disadvantage some students from participating in their studies or assessments to the best of their ability, under standard conditions. These factors may include a disability or medical condition (e.g. mental illness, chronic illness, physical or sensory disability, learning disability), significant family responsibilities, pregnancy, religious practices, living in a remote location or another reason. If you believe you may be unfairly disadvantaged on these or other grounds please contact Student Equity at eesi@curtin.edu.au or go to http://eesi.curtin.edu.au/student_equity/index.cfm for more information.

You can also contact Counselling and Disability services: http://www.disability.curtin.edu.au or the Multi-faith services: http://life.curtin.edu.au/health-and-wellbeing/about_multifaith_services.htm for further information.

It is important to note that the staff of the university may not be able to meet your needs if they are not informed of your individual circumstances so please get in touch with the appropriate service if you require assistance. For general wellbeing concerns or advice please contact Curtin's Student Wellbeing Advisory Service at: http://life.curtin.edu.au/health-and-wellbeing/student_wellbeing_service.htm

Recent unit changes

Students are encouraged to provide unit feedback through eVALUate, Curtin's online student feedback system. For more information about eVALUate, please refer to evaluate.curtin.edu.au/info/.

To view previous student feedback about this unit, search for the Unit Summary Report at https://evaluate.curtin.edu.au/student/unit_search.cfm. See https://evaluate.curtin.edu.au/info/dates.cfm to find out when you can eVALUate this unit.

Recent changes to this unit include:

Assessment Task 2.

New videos and readings have been selected to maintain currency.
